

Forklift Power

Age 8+ | 180+ Parts | $76 CAD

Forklift Power is a motorized STEM construction kit inspired by the machines that keep warehouses and factories moving. As your kids build and operate the working lifting mechanism, they discover how motors convert electrical energy into motion to perform real-world tasks. Along the way, they develop problem-solving, logical thinking, and hands-on building skills while bringing an industrial machine to life.

Full details, video and kits: brickandmotorlabs.com/builds/forklift-power.html

What You'll Learn

Forklift Power introduces your children to movement systems, basic engineering concepts, powered mechanisms, and industrial machines.

What's In The Box

- 180+ Premium Blix Building Parts
- Step-By-Step Instruction Manual
- 3V battery box
- DC Motor

Build Models

6 motorized models · 180+ parts · ages 8+

Forklift

A working motorized forklift that lifts and carries loads.

Stacker

A stacker that moves loads up and down.

Vertical Gate

A motorized gate that opens and closes vertically.

Horizontal Gate

A sliding horizontal gate mechanism.

Steering Car

A steering car that shows how the wheels turn.

Adjustable Bed

A motorized adjustable bed that tilts.
