

RC Rover

Age 8+ | 180+ Parts | $115 CAD

Give your kid a fun, hands-on building experience with this remote-controlled DIY STEM kit. Using tracks, sprockets, and Blix construction parts, your kids can build 5 different models and explore how real machines move. Once built, they can use the 2.4 GHz remote control to drive, climb, and navigate different terrains.

Full details, video and kits: brickandmotorlabs.com/builds/rc-rover.html

What You'll Learn

RC Rover introduces your kids to track drive mechanisms, sprocket movement, and power transmission, the fundamentals of how real machines move across terrain.

What's In The Box

- 180+ Premium Blix Building Parts
- Step-By-Step Instruction Manual
- 5V rechargeable battery box
- Bot Face 2.4 GHz receiver
- 2.4 GHz Transmitter (Controller)
- DC Motor

Build Models

5 RC models · 2.4GHz remote + rechargeable battery · ages 8+

Track Ranger

An all-terrain remote-controlled track bot.

Robo Cart

A motorized RC cart on a full track drivetrain.

Cheer Bot

A fun, lively remote-controlled bot.

Beetle Bot

A compact, beetle-style RC crawler.

Track Bug

A fast, low-profile RC bug.

Track & RC Engineering

Every build teaches track drive, sprocket movement, power transmission, and 2.4GHz wireless control.
