15 KITS FROM \$12

Children build a mechanism that actually moves — gears and cams, linkages, drive trains, structure — with an illustrated manual and a builder at the table to help. They take it home.

Come build with us. Every child finishes something that moves.

AGES 5 – 12 WELCOME**FREE TO JOIN****TAKE IT HOME**

Hand the child the partly built kit and say “want to finish this?” — that is the whole pitch. Ask us about a build day at your school, camp or community group: we bring every kit, part, tool and manual.
